*EZ Glide recommends viewing samples of Gentry style window prior to ordering. Gentry depictions on this literature are actual photography however lighting inside or outside the garage can significantly impact the "look" of these windows. Please consult with your dealer prior to purchase.

CONSTRUCTION

Two deep-drawn, tension-leveled, galvanized steel skins are polyester painted. The skins encapsulate a high density injected polyurethane core which is bonded using a polyurethane adhesive. Section joints sealed with a polypropylene bulb thermal break anchored within the polyurethane core. This construction method provides superb thermal performance, durability, strength, sound deadening qualities, and dent resistance for an all-around superior product.

- A. Finish Painted Coat
- B. Primer Coat
- C. Galvanized Layer
- D. Steel

- A. Tongue and groove enclosed with bulb type polypropylene thermal break anchored within the polyurethane core.
- B. 2" polyurethane injected insulation provides an R-value of 17.68
- C. Steel skins inside and out provide maximum durability.
- D. 20 gauge pre-painted heavy steel end stiles for added strength.
- E. Interior 20 gauge backer plate full height of section at all hinge points.

* other features include:
11 ball nylon rollers provide quiet operation and long lasting durability.
Heavy duty galvanized 14 gauge hardware
Aluminum bottom retainer with vinyl weatherstrip.
